PROFILE

I recently completed a full-stack web development bootcamp, equipping me with skills in HTML, CSS, JavaScript, Node, Express, React, and the MERN stack. My proficiency doesn't stop there; I'm also well-versed in iOS, Adobe, and Microsoft Office programs. With a swift typing speed of 81 words per minute, I pride myself on being efficient and adaptable. My tech background is enriched by over five years in the Web3 domain, diving into areas like Blockchain, Cryptocurrency, DeFi, DAOs, and NFTs. On the hardware front, I'm familiar with computer assembly and troubleshooting. Always eager to learn and embrace new challenges, I'm known for my attention to detail and accuracy. Dependable and honest, I value punctuality in my work. My collaborative spirit ensures I gel well with teams, fostering a harmonious working environment.

EMPLOYMENT HISTORY

Copy Operator/File Clerk at Vendor Direct Solutions, San Diego

October 2022 — Present

Assist achievements in all important tasks such as completing fax requests, troubleshooting, properly tag and file documents, combine PDFs, create CDs and labels. Proficiently handles billing, inventory, deliveries, outgoing and incoming mail.

Community Manager at Solana Hills, Solana Blockchain

January 2022 — November 2022

Create and monitor a healthy network within backend structure, budget, strategic planning, critical decision making, and scheduling in the Web3 space to minimize risk and deliver substantial and consistent user experience. Engage the community with the company's direction by tracking project's milestones and measuring performance.

Bartender at Downtown San Diego

June 2021 — March 2022

As a bartender, I expertly crafted cocktails while seamlessly engaging patrons in friendly conversations, ensuring both quality and efficiency. Skilled in navigating the demanding pace of the downtown nightlife, particularly during high-profile events, I consistently delivered prompt service. With meticulous attention, I managed payment processing and upheld rigorous cleanliness standards, even amid peak traffic. I took responsibility for maintaining and restocking inventory, ensuring the bar was always prepared. Furthermore, I collaborated effectively with fellow staff, ensuring a harmonious and efficient working environment.

EDUCATION

Full Stack Web Development Bootcamp, University of San Diego, San Diego

March 2022 — September 2023

IT Support Specialist, Google, Online

August 2021 — December 2021

General Education, Palomar Community College, San Marcos

August 2012 — May 2014
